

# Mobile App Design

## Exercise 4: App With Multiple Pages (20 points)

### Requirements:

- Create an App about classes at THIS with four view controllers/pages with tab icons.
- Customize the icons and the names for all pages. Each icon should represent the class. The icons should be coming from icons8.com
- Change the background color of each page (Observe contrast) The background color can be different for different classes.
- Each page has a button (Tap Me) and an empty label. When the button is pressed, it will display in the empty label "Welcome to the Science class"
- The project name is MAD-Color-Exer4-LastName-FirstName
- Zip the folder and send it to PSL.
