

Mobile App Design

Exercise 5: App With Navigation Controller (20 points)

Requirements:

- Create an App with the following screens:
 - a. Launch Screen (It should have a logo)
 - b. Main Page with three Buttons that link to three other pages/view controllers (It should have a background image)
 - c. Other three pages/view controllers (It should have at least two images)
- Observe the layout principles (video is on PSL, Class Resources/Materials)
- Each page should have labels, images and scroll view
- It should run on iPhone 11 Pro
- The filename is MAD-Color-Exer5-LastName-FirstName
- Zip the folder and send it to PSL.
